List of publications directly related to the CMWP-procedure

1) T. Ungár, I. Dragomir, A. Revesz, A. Borbely

2) I. C. Dragomir, T. Ungár
The dislocations contrast factors of cubic crystals in the Zener constant range between zero and unity, Powder Diffraction 17 (2), June 2002, 104-111

3) I. C. Dragomir, T. Ungar
Contrast factors of dislocations in the hexagonal crystal system

4) Levente Balogh, Gábor Ribárik, and Tamás Ungár,
Stacking faults and twin boundaries in fcc crystals determined by x-ray diffraction profile analysis, J. Applied Physics, 100, 023512, 2006, 1-10

5) Levente Balogh, Geza Tichy, Tamas Ungar,

6) Tamás Ungár, Levente Balogh, Gábor Ribárik,
Defect-Related Physical-Profile-Based X-Ray and Neutron Line Profile Analysis

7) Gábor Ribárik, Tamás Ungár,
